

Scope of Sales Appointment Confirmation Form

The Centers for Medicare & Medicaid Services (CMS) requires agents to document the scope of a sales appointment prior to any face-to-face sales meeting to ensure understanding of what will be discussed between the agent and the Medicare beneficiary (or his/her authorized representative). All information provided on this form is confidential and should be completed by each person with Medicare or his/her authorized representative.

Stand-Alone Medicare Prescription Drug Plans (Part D)

Medicare Prescription Drug Plan (PDP) — A stand-alone drug plan that adds prescription drug coverage to the Original Medicare plan, some Medicare cost plans, some Medicare private-fee-for-service plans and Medicare medical savings account plans.

Medicare Advantage Plans (Part C) and Cost Plans

Medicare Health Maintenance Organization (HMO) — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. In most HMOs, you can only get your care from doctors or hospitals in the plan's network (except in emergencies).

Medicare Point of Service (POS) Plan — A Medicare Advantage plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. Like an HMO, you get care from an in-network primary care provider (PCP), but like a PPO, you can go out-of-network. You will generally pay less for in-network care.

Medicare Preferred Provider Organization (PPO) Plan — A Medicare Advantage Plan that provides all Original Medicare Part A and Part B health coverage and sometimes covers Part D prescription drug coverage. PPOs have network doctors and hospitals, but you can also use out-of-network providers, usually at a higher cost.

Medicare Private Fee-For-Service (PFFS) Plan — A Medicare Advantage plan in which you may go to any Medicare-approved doctor, hospital and provider that accepts the plan's payment, terms and conditions and agrees to treat you—not all providers will. If you join a PFFS plan that has a network, you can see any of the network providers who have agreed to always treat plan members. You will usually pay more to see out-of-network providers.

Medicare Special Needs Plan (SNP) — A Medicare Advantage plan that has a benefit package designed for people with special healthcare needs. Examples of the specific groups served include people who have both Medicare and Medicaid, people who reside in nursing homes, and people who have certain chronic medical conditions.

Medicare Medical Savings Account (MSA) Plan — MSA plans combine a high-deductible health plan with a bank account. The plan deposits money from Medicare in the account. You can use it to pay your medical expenses until your deductible is met.

Medicare Cost Plan — In a Medicare cost plan, you can go to providers both in- and out-of-network. If you get services outside of the plan's network, your Medicare-covered services will be paid for under Original Medicare, but you will be responsible for Medicare coinsurance and deductibles.

Medicare Supplement Plans

Medicare Supplement plans are offered by private companies to help cover medical expenses Original Medicare doesn't cover. You must have Original Medicare to purchase a Medicare Supplement plan. With a Medicare Supplement plan, you can see any doctor and go to any hospital that accepts Medicare patients, but these plans don't include prescription drug coverage.

FirstCarolinaCare Insurance Company's FirstMedicare Direct plans are HMO and PPO plans with a Medicare contract. Enrollment in a FirstMedicare Direct plan depends on contract renewal. Other providers are available in our network. Call (877) 210-9167 (TTY: 711) for more information.
